Re: Water Right Permit No. **G2-28841**

Dear Ms. Garrison:

This letter is to correct Superseding Permit G2-28841 dated March 31, 2009, by removing the provision (in italics) requiring repairs to Well # 3. This work was done and acknowledged in a letter sent on November 3, 1998 by Vicki Cline of the Department of Ecology. I apologize for any inconvenience that this oversight may have caused.

"Prior to the issuance of the final water right certificate, the Town of Rainier shall undertake to work to bring Well #3 into compliance with WAC 173-160-075, the Minimum Standard for construction and Maintenance of Wells, and repair the well so as to prevent inter-aquifer mixing, resulting from completion in two aquifers."

We are reissuing a revised permit for your files. If you have any questions, please contact me at (360) 407-0274 or by email at clat461@ecy.wa.gov.

Sincerely,

Charlotte Lattimore
Water Resources Program
